IDEAL SCHOOL ACTIVITY!

How biodiverse is your school?

Students record and upload the plants and animals near their school

Build up your school's own unique field guide and biodiversity rank

Records are identified by experts

Compete with other schools!

Contribute data to help on-the-ground outcomes across Australia

Record new sighting or audio clip

Record   Upload   Account   Settings

HOW TO GET STARTED

1 [TEACHER]
Sign up to naturemapr.org

2 [TEACHER]
Create a collection for your class activity here: naturemapr.org/collections/add

3 [TEACHER]
Print and display the QR code to your collection around your school

4 [STUDENTS]
Sign up to naturemapr.org and upload sightings of plants and animals to the class collection

Join thousands of students mapping the species around their schools across Australia
